⊖ 什么是负离子？

生态负离子

于自然界中所产生；或者由模拟自然原理产生的。在自然界中，如森林及瀑布区，飞散的水粒子与周围空气摩擦可形成大量的负离子让空气变得清新，人们就会感觉特别舒适也被称为“空气的维生素”。

⊖ What Is Negative Ions?

NEGATIVE IONS GENERATED FROM ECOLOGICAL SYSTEM

Although negative ions can neither be seen nor smelt, they do really exist in nature. It does not only keep us at the best of our health, but also eliminates harmful bacteria. The ENORMOUS amount of negative ions can be generated by the photosynthesis by plants, lightning, the crashing between water molecules (such as rain and waterfalls), and mineral stones. It is also called as "Vitamin to the Air".

⊖ Apakah Anion?

ANION WUJUD DALAM SISTEM EKOLOGI

Walaupun anion tidak dapat dilihat dan tidak berbau, tetapi anion benar-benar wujud dalam alam semula jadi. Ia bukan sahaja membantu kita mengekalkan kesihatan, malah dapat menghapuskan bakteria yang berbahaya. Anion yang banyak boleh didapati daripada fotosintesis tumbuh-tumbuhan, kilat, hempasan antara molekul air (seperti hujan dan air terjun) dan batu mineral. Anion juga dikenali sebagai "Vitamin Udara".

空气负离子浓度与环境、健康的关系

NEGATIVE IONS CONTENT IN ENVIRONMENT KANDUNGAN ANION DALAM ALAM SEKITAR

环境条件 Conditions of the environment Keadaan Alam Sekitar	负离子空气浓度 (立方厘米) Concentration of Negative Ions in Air (per cm ³) Kepekatan anion dalam udara (per cm ³)	健康状况 State of health Keadaan kesihatan
多人操作的厂房 Factory with workers Kilang yang ramai pekerja	0-50	诱发各种疾病 May cause a variety of diseases Mengakibatkan pelbagai jenis penyakit
都市室内 Indoor city area Kawasan tertutup di bandar	60-150	易诱发生理障碍等 Easily induces physiological disorders Merangsang gangguan fisiologi
街道绿化区 Street with surrounding green trees Jalan yang dikelilingi dengan tumbuhan hijau	200-500	濒临生理疾病阶段 On the edge of physiological disorders Tahap pingiran kerencatan fisiologi
公园 Urban park areas Taman di bandar	500-1000	维持人类的基本健康 Maintains basic needs for human health Mengekalkan keperluan asas untuk kesihatan manusia
户外/开发地区/空旷地区 Outdoor / open field Kawasan luar / Kawasan terbuka	1000	增强人体免疫力和抗菌力 Strengthens the immune system of human body Menguatkan sistem imunisasi badan manusia
高山区 High mountain areas Kawasan luar / Kawasan terbuka (lonpaint™)	1000-2000	可杀菌、消除异味及降低疾病传染 Kills bacteria, eliminate undesirable odors and reduces the spread of diseases. Menghapuskan bakteria, menghilangkan bau busuk dan mengurangkan jangkitan penyakit
森林 Forest Hutan	2000-3000	促进自然愈合 Facilitates natural healing Terdapat fungsi penyembuhan semulajadi
瀑布 Waterfall Air terjun	5000	促进愈合因子 Has natural healing properties Terdapat fungsi penyembuhan semulajadi

负离子对人体九大好处

Ionpaint™ 目前已经获得多项国际认证，证实它不但是绿色产品，而且能够在空气中释放负离子。

Ionpaint™ is awarded several international accreditations, proving that it is an eco-friendly product, yet able to emit negative ions in the air.

Ionpaint™ dianugerahi beberapa pengiktirafan antarabangsa, membuktikan bahawa bukan hanya cat Eco-Friendly tetapi dapat mengeluarkan ion negatif di udara.

NanoLite

- 消除异味与PM2.5
Eliminates Odors & PM2.5
- 抑制菌
Anti Bacterial
- 耐洗刷型
